Parks and Protected Area

Proposed blocks are identified by green polygons.
Proposed SHS is identified by orange polygons.
Proposed thinning (PCT & CT) areas are identified by brown polygons.
Proposed herbicide application areas are identified by purple polygons.
These areas are subject to change during the planning process.
Portions of these blocks may be dropped and areas that are currently not shown as part of a block may be added.
Concerns should be provided at a compartment level to ensure that any potential impacts in the area can be discussed and addressed through the consultation process.
